

Macleod College BYOD Program 2019

Macleod College understands the importance of ensuring our students develop 21st Century Skills. We strive to provide our students with relevant curriculum building an enthusiasm for learning and essential skills to be adaptable, resourceful and flexible thinkers.

At Macleod College we recognise the diverse backgrounds and technology interests of our students. To accommodate these interests our BYOD model allows students and parents to choose their own learning device. This supports families that may already have an appropriate device and can eliminate the need to purchase additional equipment. We are happy to provide advice to parents when choosing appropriate devices.

To support the BYOD program at Macleod College we have:

- Replaced existing WIFI infrastructure to suit multiple device types
- Updated curriculum and learning spaces to adapt to changes in technology
- Evaluated devices of all types and recommend notebooks as the preferred device
- Arrange secure parent purchase portal via edunet <https://macleodcollege.technologyportal.com.au/>
- Password is **MC2019**

Apple	MacBook Air (2017) 13" i5 / 1.8ghz	8GB	128gb SSD	\$1334.10

Frequently Asked Questions.

Is a device required?

Yes, In today's digital environment access to a personal learning device is essential. Students access online resources and curriculum on a daily basis and use Compass and Google Apps to research, check and submit learning tasks set by teachers.

Insurance and Extended Warranty - Do I need it?

* Student devices are not covered for loss/theft/damage under this program and therefore, parents are required to organise appropriate insurance if required. Macleod College is not responsible for data recovery or repairs to student devices and students are advised to maintain backups and organise warranty repairs.

* Insurance and extended warranties are always advised and are best practice when purchasing expensive equipment. The average life of a device is 3 years. You are advised to check the pricing and agreement terms before purchasing any insurance plans. Be aware of insurance excess costs and the number of allowed claims over the life of the policy. The edunet portal includes optional extras for insurance and warranty that can be included when purchasing a device.

Do we still need textbooks?

Many students find it easier to work from a physical textbook. For mobile devices some textbooks publishers have ebook versions available. You are advised to check the school booklist before making any purchases.

I already own a device, can I bring it to school?

If the device you already have meets the device requirements specified above it is acceptable to bring to school.

Is identification of student devices required?

Before the student brings the device to school it is important that you make note of the brand, model and serial number in case the device is lost or stolen. This information is required for police reports. The use of a name tag or identification stickers is advised as some students may have identical devices.

How will students backup work?

The students are advised to backup work to USB drive or google drive. It is not advised that movies, music and pictures are saved to google drive as these are often large files and may take considerable time to upload. It is advised to back these file types onto a portable hard drive, stored at home.

Is the Internet safe?

Macleod College utilizes the internet as provided by the Department of Education & Training, this is filtered and monitored to ensure students access to the internet is appropriate and safe on all school and BYOD devices.

How does the student connect to the network?

Students are advised to bring their device to school on the first day. All students will be provided with access details to their google and email address information. All students are emailed their WIFI connection password. This allows students to connect and ensure WIFI and internet access are working and any connection issues can be resolved to ensure access as quick as possible.

How do students store their device?

Students are not to leave any valuables in school lockers overnight, weekends or holidays. All students must have a padlock to secure their lockers at all times. **All devices are to be stored in lockers** when not in use or during a sporting activity. No devices are to be left unattended at any time.

Can students use a smartphone?

Mobile phones are not considered a BYOD device and are not permitted to be used during class time.
