IT and Facilities Manager - Simone

Bring your own device (BYOD)

At Macleod College we recognise the diverse backgrounds and technology interests of our students. To accommodate these interests our BYOD model allows students and parents to choose their own learning device. This supports families that may already have an appropriate device and can eliminate the need to purchase additional equipment. We are happy to provide advice to parents when choosing appropriate devices.

To support the BYOD program at Macleod College we have:

- Upgrading existing WIFI infrastructure to suit newer device types
- Updated curriculum and learning spaces to adapt to changes in technology
- Evaluated devices of all types and recommend netbooks as the preferred device

* This includes laptops and tablets, but not mobile phones.

Features

Tough enough to handle whatever comes it way

ThinkPad laptops are tested against 12 military-grade requirements and pass more than 200 durability tests. Additionally, the ports are reinforced with rubber bumpers to protect against damage to corners. The keyboard is water-resistant and houses mechanically-anchored keys to prevent restless little fingers from prying them off. Should an accident occur, this tough device is built to withstand bumps and drops from up to 3 feet / 90 cm—about the height of a school desk.

Homework never looked this good

The 11.6" HD display with anti-glare technology reduces eye strain and allows students to work even longer. Good news and bad news, students – you can spend more time on your homework!

Leave the power cord at home

Backpack, textbooks, notebooks, pencils, and more—students have enough to worry about. No need to add a power cord to that list. With up to 12 hours* of battery life, the ThinkPad 11e will last for a full day of classes and more. Bring it home, charge it up overnight, and forget the cord all over again the next day!

Macleod College uses COMPASS as a primary means of communication between school and home, and we have provided each family with a PARENT LOGIN. We ask that you check COMPASS regularly as it will provide you with important information about school events through the news feed and calendar.

How to access COMPASS:

Click on the COMPASS button on the school website (www.macleod.vic.edu.au), or
Use the following web address: <https://macleod-vic.compass.education>

How to log in to COMPASS:

Once you are on the COMPASS login screen, use the unique USERNAME LOGIN provided below. You will be able to use COMPASS immediately. ***It is very important that these login details are NOT given to students. All students have their own login details and should not have any reason to use the parent login.***

You can reset your password by using the "cant access your account" link from the compass homepage.

Any assessment results provided below are raw scores and may change during school or state based statistical assessment moderation. The statistical, state based, moderation process is used to ensure that schools' assessments are comparable throughout the state. It involves adjusting each schools' coursework scores for that study to match the level and spread of the combined examination and GAT scores for the students in that school doing that study. For more information on assessment moderation, please contact the school.
